

CLR SERIES TWO-WAY RADIO

SMALL. VERSATILE. POWERFUL.

CLR SERIES TWO-WAY RADIO

SMALL. VERSATILE. POWERFUL.

Clear communication is critical for all teams. Whether you are supervising a production line, monitoring the school playground, serving customers in a store, or managing an office, you need to be able to connect instantly to share information with your team. The CLR Series is your essential communication tool built to last all day, every day.

THE CLR SERIES IS YOUR ESSENTIAL COMMUNICATION TOOL

OFFICES

HOSPITALITY

RETAIL

EDUCATION

PRODUCTION

ATTRACTIVE AND COMFORTABLE DESIGN

The palm-sized CLR has a compact design to discreetly and comfortably carry with you through extended shifts.

ESSENTIAL CONTROLS

Simple-to-use radio operation helps users focus on their tasks. The easy-to-locate push-to-talk button, combined with other essential controls, keeps the design simple yet has everything you need to stay connected with your team.

LOUD AND CLEAR AUDIO

Reduce missed messages with louder and clearer audio from the built-in speaker or compatible headsets for precise communication between users.

POWERFUL PERFORMANCE

The CLR is IP52 rated to resist dust and water that could otherwise damage the radio. It has also been tested to MIL-STD 810H to ensure it is tough enough to take with you all day. Extended shifts are no problem for the CLR; its long lasting battery helps you power through up to 18 hours of communication and collaboration.

PERSONALISE AND CUSTOMISE

Available with 16 channels, the CLR Series offers two models to suit your staff and work environment. A PMR446 license-free version or higher power 1W licensed model with a greater coverage area so your business can organise team communications in the space you need.

A range of accessories are available including different chargers and earpieces, meaning users can customise the radio to meet their needs. You can even customise radio settings with custom guided voice announcements to help your team get the most from their CLR.

OPERATIONS AT A GLANCE

POWER THROUGH BACK-TO-BACK SHIFTS

Long lasting battery

Operates for up to 18 hours to help your teams power through extended shifts.

Loud and clear audio

Clear and crisp audio performance in any environment. Adjust between 15 volume levels from the 0.5 W speaker.

8 Colour LED

Indication of active channel, transmit / receive, and battery status.

Push-to-talk button

Oversized, textured, and centrally located to provide easy access for eyes up operation.

Durable polycarbonate housing

IP52 and MIL-STD 810H rated to protect the radio from dust, water, vibration, shock and temperature extremes.

FEATURES TO KEEP YOU CONNECTED

CLR RADIO MODELS

PMR446 unlicensed and 1W licensed models are available so you can stay in touch with your team, no matter what the size. Whether you're managing a small boutique, school playground, or office, the CLR Series can keep your teams connected.

ESCALATE CALL

Initiate an important call and alert users on other channels to immediately communicate messages in high-risk situations, keeping your teams and assets safer when an incident occurs.

16 CHANNELS

Multiple channels give you the flexibility to keep different teams on separate channels and keep your staff focused on their roles. Privacy codes can be added to protect communications from neighbouring groups.

VOICE GUIDED NAVIGATION

Help your staff to easily learn the radio with voice guided menus. The CLR allows you to use pre-defined voice prompts for your channels and lets you add custom voice prompts to help your staff identify the channel they should be using.

REPEATER CAPABLE

With a Motorola Solutions repeater and the 1W licensed CLR model, you can stay in touch with your team and in control of your business across an area up to 37,160 sq m and 30 floors.

ACCESSORIES

**CHARGE UP TO 12 CLR RADIOS AT ONCE
WITH THE MULTI-UNIT CHARGER**

CLR SERIES MULTI-UNIT CHARGER KIT PMLN8250

This 12-pocket charger is the ideal solution for your CLR fleet. The multi-unit charger simplifies your power management for all your CLR radios.

SIMPLE

The charger can be used with or without the belt clips to ensure the clips stay with the radio.

SPACE SAVING

By enabling 12 devices to be charged at once, large fleets can be charged in a small space using fewer power sockets.

VERSATILE

The charger also has the ability to charge up to 6 standalone batteries in the front 6 slots, meaning devices can stay in the field and usable while spare batteries are charged.
