# PRODUCT BENEFITS & INFO

Small body.  
Huge capabilities.

The Hytera SC580, a cutting-edge 4G body camera, excels at capturing pristine videos, crisp audio, and sharp photos, all while ensuring secure storage. With the ability to seamlessly transmit and livestream video to the command center, it's a game-changer in on-field operations.

The Hytera SC580 captures high quality videos, audios, and photos and stores them securely. When the situation requires it, the body camera can transmit and livestream video from the field to the command center over cellular network or WLAN.

Weighing only 158g, this pocket-sized body camera stands with a height of 90mm, a width of 55mm, and a depth of 26.3mm, allowing officers/stewards to comfortably hold it in their hands or wear it on their person all day long without much burden. Its thin body comes with a powerful 3,200 mAh battery, which lasts longer than regular work shifts.

Empowered by Hytera's Push-to-talk over Cellular (PTToC) application, SC580 works also as a PoC radio to deliver PTT services among the officers and dispatchers for better communications and collaboration. It allows the officer to make video calls while recording and streaming video, thanks to innovative dual-stream technology as well as the front and rear cameras.

## KEY FEATURES:

STABLE RECORDING

PUSH-TO-TALK FEATURE

VIDEO CALL WHILST RECORDING

STREAM EVIDENCE

STARLIGHT VIDEO RECORDINGS

10 HOURS BATTERY LIFE

### STARLIGHT TECHNOLOGY

With the 6-axis image stabilisation technology, the body camera captures stable and clear videos even when the user is on the move.

Dimensions	90mm x 55mm x 26.3mm
Weight	158g - 177g with belt clip
Screen	2.0-inch
Storage Capacity	16GB / 32GB / 64GB / 128GB
Battery Capacity	3,200 mAh
Camera	Front Camera + Rear Camera
Night Vision	Infrared or Starlight
Field of View	121 (Infrared) / 151 (Starlight)
Focus Range	0.5m to infinity
Video Resolution	1080p@30fps / 720p@30fps / 480p@30fps
Video File Format	MP4
Photo Resolution	16MP
Photo File Format	JPG
Audio File Format	AAC
File Encryption	AES-256bit
WLAN	802.11 a/b/g/n/ac
BT	BT 5.1.Supporting BLE
Positioning	GPS / BDS / GLONASS / A-GPS
Interface	Type-C. Supporting OTG output.
IP Rating	IP68
Drop Test	2 meters
Operating Temperature	-20°C to 60°C
