# 900SAFE SHEL OVERVIEW

## Revolutionizing Emergency Response & Casualty Care

**900Safe Shel is a fast-deploy emergency shelter that safeguards the privacy and dignity of casualties and fatalities during incidents. Inflates under 15 seconds, it instantly establishes a private, weather-protected cover for treatment, reducing public visibility and supporting responders.**

900Safe Shel is particularly valuable within the rail industry, where incidents often occur in open, highly visible environments such as stations, platforms, level crossings, and track side locations. Its rapid deployment capability allows rail personnel and emergency responders to quickly establish a private, weather-protected space around a casualty or fatality, helping to preserve dignity, protect individuals from public view, and support effective incident management.

### BUILT FOR RAPID RESPONSE

This product is equipped with multiple inflation options, six access points, and a floorless design that allows it to be positioned quickly and easily over a casualty. It features a foil-lined interior to help minimise heat build-up, a removable groundsheet, and a robust construction using ripstop fabrics with waterproof taped seams. Additional design elements include colour-coded zips for ease of use, high-level windows that help reduce stress and maintain privacy, and a heavy-duty backpack for convenient transportation and storage.

### EASY ASSEMBLE IN 5 STEP

- Step 1: Unpack
- Step 2: CO2 Inflation
- Step 3: Inflate with Manual Pump
- Step 4: Pressure Release
- Step 5: Secure (If required)

The 900 SafeShel can be deployed, assembled, and fully inflated in under 15 seconds using five easy steps.

### KEY FEATURES:

**IMMEDIATE  
PRIVACY**

**COMPACT &  
LIGHTWEIGHT**

**EASY  
INFLATION**

**PORTABLE  
DESIGN**

**REUSABLE  
SOLUTION**

**HIGH-PERFORMANCE  
MATERIALS**

# 900SAFE SHEL PRODUCT SETUP

Protecting Privacy, Preserving  
Dignity Instantly with Ease

900Safe Shel is an innovative inflatable emergency shelter designed to protect privacy and dignity in under 15 seconds. With six-point access and no rigid components, it enables safe deployment in crowded or confined environments while providing a secure treatment space for emergency responders.

## MANUAL INFLATION - 15 SECONDS

900Safe Shel can be manually inflated in less than 15 seconds using the supplied double-action hand

## CO2 INFLATION - 7 SECONDS

The optional CO2 inflation system enables 900SafeShel to deploy in under 7 seconds, providing an ultra-fast solution when rapid casualty protection and privacy are critical.

## EASY ACCESS DESIGN

Its floorless design enables easy access, while the optional foil base provides additional thermal protection against cold or wet ground. Ideal for indoor and outdoor use, the shelter supports safeguarding, crowd management and duty of care procedures, helping to reduce stress for casualties and enhance incident management. Trusted by emergency services and search and rescue teams.

### KEY FEATURES:

FLOORLESS  
DESIGN
