LONG LASTING
BATTERY LIFE

COMPACT
DESIGN

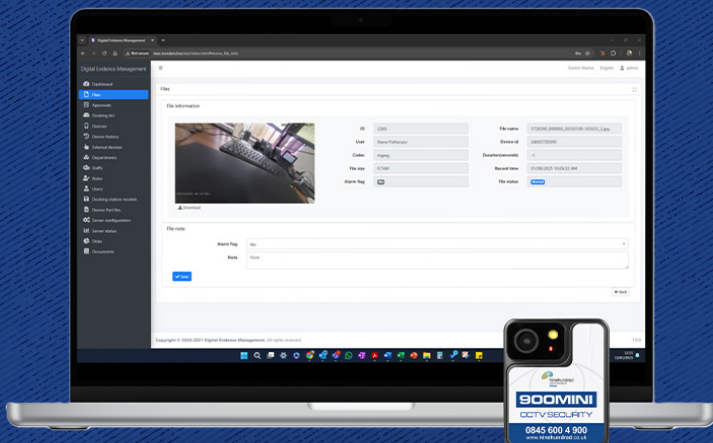

INDUSTRY SPECIFIC

Designed to support a wide range of industries requiring reliable mobile video recording and incident documentation. Ideal for security services, law enforcement, retail loss prevention, healthcare environments, transport operations, facilities management, and frontline workforce teams, the device enhances accountability, staff safety, and evidence collection.

SYSTEM SUPPORT

System management platform, providing organisations with secure, simple access to recorded footage. Footage captured on the device is automatically uploaded, encrypted, and stored in the cloud, eliminating the need for manual downloads and local storage. This ensures recordings are instantly available for review
